

Fawaaz Ahamed M N

Full Stack Python Developer

Motivated and detail-oriented Full Stack Developer with a passion for creating dynamic and user-friendly web applications. Completed an intensive Full Stack Web Development program. Skilled in HTML, CSS, JavaScript, and Python frameworks such as Django. Eager to leverage newly acquired skills in a collaborative and innovative environment. Looking for an entry-level position to contribute to impactful projects and continue professional growth.

Projects

E-commerce Website

Developed a fully functional e-commerce site using Django, featuring user authentication, product listings, and a shopping cart.

- Implemented a secure user authentication using Django
- Designed and developed a responsive front-end using Bootstrap.
- Integrated payment processing using RazorPay API.
- To handle high traffic with AWS deployment for better scalability.

Hotel Booking System

Implemented a hotel booking system using Django, featuring room availability checking, booking, and payment processing.

- Designed the database and developed models using Django ORM.
- Created views and templates to handle booking workflow and user interactions.
- Integrated payment processing using RazorPay API.
- Deployed the application on AWS, ensuring scalability and reliability.

Restaurant Website

Built a restaurant website using HTML, CSS, and JavaScript to showcase restaurant facilities and services.

- Developed a visually appealing and responsive layout using HTML and CSS.
- Implemented interactive elements and animations with JavaScript.
- Implemented an interactive menu with dynamic filtering and search functionalities.
- Managed version control and collaborative development using GitHub.

Portfolio Website

Created a personal portfolio website to showcase projects and skills.

- Designed a modern and clean layout using HTML, CSS, and JavaScript.
- Implemented a responsive design to ensure compatibility across devices.
- Deployed the site using GitHub Pages for easy updates and maintenance.
